

INSTRUCTIONS FOR USING THE P-ATLAS PARKING FACILITY

WELCOME TO THE P-ATLAS PARKING FACILITY

P-Atlas is a parking facility in Jätkäsaari that is open to those who have reserved a parking space. Parking is available on level P2 (third floor), where you can park in your marked, user-specific parking space. You cannot park in other spaces. The parking permit must be clearly visible through your car window. Unauthorized parking will lead to a parking ticket.

The facility's users will be given a key for the car heating outlets.

1.

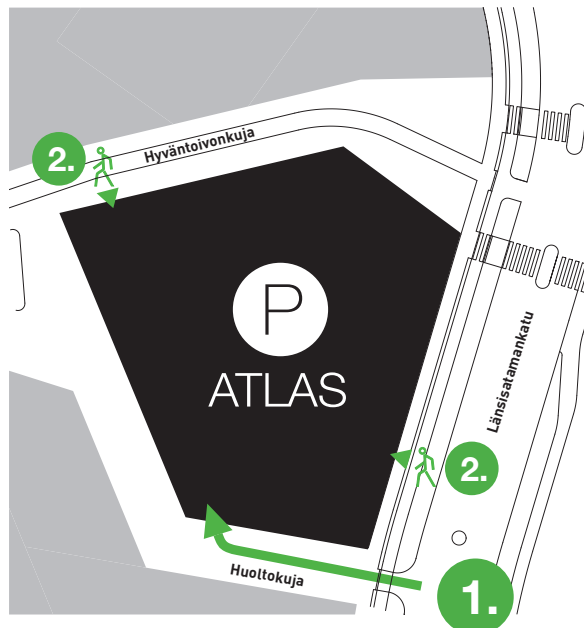

ENTRANCE (LÄNSISATAMANKATU 35)

You can drive into the facility from Länsisatamankatu, using the Huoltokuja ramp. The maximum height of the facility is 2.1 metres.

2.

PEDESTRIAN ENTRANCES

You can enter the facility on foot through two different doors, either from Hyväntoivonkuja or Länsisatamankatu. Registered users will be given a key for the pedestrian doors.

CHARGING STATIONS FOR ELECTRIC VEHICLES

There are public charging stations for electric vehicles in the parking facility. The price of energy is lower for contract customers. You can get a contract from the customer service of Jätkäsaaren Pysäköinti.

The charging stations are operated in the same way as any public charging station. Check in at the charging station as a Virta.fi customer or with another operator's ID that is compatible with the Virta service. The charged energy will be added to the regular invoice for your electric vehicle. If necessary, register in advance at virta.fi.
